

Clinical Respiratory Educator (RN)

Position Description

- Rewarding and flexible part time role for a Registered Nurse who is passionate about helping people with asthma and related respiratory conditions to breathe better
- work alongside a highly experienced and dedicated education team
- Modern office based in West Perth. Salary packaging options, 4 weeks annual leave plus an additional 5 days at Christmas (Pro rata)

Reporting to the Manager, Learning and Development, the Clinical Educator (RN) works to ensure high quality health education service delivery across Asthma WA's Health Services Team. Working as part of our small team, this role is involved in implementing a range of respiratory health education services to internal and external stakeholders.

The key focus of this position is to provide quality asthma and COPD education and support to consumers, stakeholders and staff. This includes group and individual education, as well as utilising video conferencing to ensure access and equity for people living in rural and remote WA.

Key functions of the role:

Respiratory Health Service Delivery 60%

- Implement, promote and evaluate asthma and COPD education programs
- Review and update content of Asthma WA education packages and information Fact Sheets
- Deliver evidence-based asthma and COPD information, education and advice internally and externally to a range of stakeholders
- Utilise information technology to deliver services online and via videoconferencing
- Maintain client records and databases as per Asthma WA procedures, including the implementation of my Health Record across the organisation

Education and professional upskilling 40%

- In conjunction with the Manager, Learning and Development, coordinate and implement delivery of professional education to healthcare professionals throughout WA
- Develop and coordinate delivery of professional upskilling for Asthma WA internal staff
- Assist in the implementation of robust evaluation processes to assess impact, outcomes and efficacy of service delivery
- Implement strategies to maximise engagement with rural health professionals and service providers throughout WA

Other 10%

- Produce monthly activity reports for the GM – Health and Regional Services and Manager, Learning and Development

- Comply with work place policies and procedures, including Occupational Safety and Health, Equal Opportunity legislation and Privacy legislation
- Other reasonable duties as requested by GM – Health and Regional Services and the Manager, Learning and Development

Essential Criteria

- Registered Nurse
- Current AHPRA Registration
- Demonstrated clinical expertise and knowledge of respiratory conditions, especially asthma and COPD
- Demonstrated ability to practice in accordance with the Registered Nurse Standards of Practice and Codes of Ethics for Nurses
- Practices with a patient centred and wholistic care approach
- Well-developed written and verbal communication and negotiation skills
- Works well independently and as part of a team
- Ability to undertake education and training, presenting to a variety of audiences eg: community groups, health professionals, one/one education
- Ability to make and maintain stakeholder relationships, both internally and externally
- Computer literacy skills in Microsoft Office, and experience using Record Management systems and My Health Record

Desirable Criteria

- Knowledge of or experience in the NFP sector and health service delivery
- Knowledge of rural and remote service delivery
- Experience in the implementation of My Health Record
- Knowledge of Government and Community service funding processes
